SeaSport

SeaSport Boats Inc. is a family-owned and operated company that has been manufacturing boats since 1955. We have over 50 years of uninterrupted boat building experience, making SeaSport one of the longest running, most experienced fiberglass boat manufacturing companies in the United States. Our boat line initially started as the “Sportsman” and evolved into SeaSport in 1983. While we now have boats in many parts of the world, the lineage of the line comes back to the Pacific Northwest and Alaskan waters where a safe, well-built boat is crucial. The durability and quality of our boats has not gone unrecognized. Our customers have experience and appreciate our quality, and truly value the outstanding effort that goes into constructing every SeaSport boat. They range from weekend cruisers to hardcore charter fishermen. The bottom line is our commitment to quality. This guarantees that every customer, however they plan to use their boat, is purchasing one of the finest vessels available on the market today. We invite you to compare our product with the competition and see why we are the leader in pilothouse boats.

WHY SHOULD YOU BUY A SEASPORT?

At first glance, a boat could seem to be everything you want and need when you launch into the water. Buyers soon remember that it is more than simply looks that determine satisfaction, performance and quality. SeaSport believes that serious boat owners are looking for a vessel that they can rely on to safely take their family and friends to destinations other boats may not be able to explore. A boat should be dependable, efficient and comfortable. Good looks are a plus, but should come as a result of quality of design. One look at SeaSport's functional lines, enclosed cabins and large, self-bailing cockpits tells you that these boats are built for serious fishing. But SeaSport has made sure that every boat it makes retains the flexibility of use you want in a family-oriented recreational craft, combining safety with unbeatable performance that you can depend on.

BUILT FOR LIFE

SeaSport utilizes time-tested techniques such as knitted fiberglass with a biaxial orientation that is lighter in weight and 30% stronger than traditional methods, coupled with cutting edge vacuum-bagging technology to produce the strongest, lightest, safest boats on the market today. These convex complicated hull forms cannot be duplicated in aluminum. Going beyond the surface of the boat, putting the same hand-made quality craftsmanship into every model is what SeaSport is all about, prioritizing safety and durability in every boat. This is why our products are so popular in harsh waters.

You will see the extra dedication to quality that SeaSport constantly strives for when designing and building a boat. Unitized construction takes extra time and effort, but it results in a stronger product that pays off after years of use. SeaSport's experience of more than 50 years is evident in boats that are meticulously thought out in every detail. The best materials and the most advanced construction methods have produced a boat that is safe, easy to operate and has low maintenance requirements.

COMFORT

Sensible cabins with comfort and space enough to keep the family warm, dry and safe are featured in all SeaSport boats. All cabins are created with maximized comfort and minimum maintenance requirements so you can spend more time enjoying the water and less time worrying about your boat. As with everything at SeaSport, quality and durability are stressed throughout our boats interiors. Thoughtful appointments and subtle accents provide a comfortable and relaxing ride.

SPORTSMAN 2200

If great things come in small packages, the Sportsman 2200 is bursting at the seams. The Sportsman may be the smallest model of the SeaSport line, but it's the leader in its class. The 2200 is ideal for sport fishing and family criusing. The cabin includes a dinette that converts into a bunk, half galley with teak accents and a large V-berth to sleep two comfortably. The 2200's deep-V hull design will get you anywhere you want to go and back comfortably and safely. This boat is perfect for both the first time and seasoned buyers.

V-berth Length	6'	Draft Drive Down	39"	Displacement	4800 lbs (dry)	Single Stern Drive Power (Diesel)	

XL 2400

Whether you're hauling in tuna off the Pacific Coast or fighting king salmon in Alaska, the rugged XL 2400 will get you to the fish. Just a few of the standard features include 3 heavy-duty wipers, dual batteries and trim tabs. The roomy dinette conveniently converts into a bunk, and the generous V-berth offers the perfect place to rest after a hard day on the water. The XL's 70 sq. ft. cockpit provides a massive platform for the active angler to wrestle any size catch. The protective pilothouse allows for year-round boating, maximizing your time and enjoyment on the water. Every avid sport fisherman knows a great boat can mean the difference between a trophy salmon on the wall and 'the one that got away' – so don't settle for less than a SeaSport.

ALEUTIAN 2600

Popular with pleasure cruisers, the Aleutian 2600 offers the opportunity to relax in style and unmatched comfort, while taking in all the sea has to offer. With the ability to cruise long distances across open water, and spend extended time in remote locations, this boat delivers. The Aleutian has the largest single level cabin of the 2600 series, providing unbeatable comfort and a 360 degree view for 7 people. The spacious cabin offers forward facing seating, a space-saving sink underneath the pilot seat, enclosed head, large V-berth and four person convertible dinette. The Aleutian has a huge hardtop easily handling anything from a dinghy to crab pots to kayaks. Wherever your journey takes you, the Aleutian 2600 is the boat for you.

ALASKA PILOT 2600

Easily trailerable and built for year-round use, the Alaska Pilot 2600 gives you the benefits of a large cruiser without the hassle. This is an ideal boat for any occasion, from extreme fishing weekends to lengthy family excursions. The rugged Pilot will comfortably accommodate a family of four, and makes the perfect boat for those who love to entertain. Complete with a full sink, convertible dinette, V-berth, mid-ship Pullman berth and other optional amenities, the Pilot offers nearly every convenience you can think of. The signature raised pilothouse provides outstanding visibility. The Pilot's aft cabin offers room atop for items such as a dinghy, coolers, or crab pots. The Alaska Pilot's unique styling and unmatched performance set it apart from the competition.

COMMANDER 2800

The newest addition in the SeaSport lineup is the Commander 2800. The commander is the perfect size for both leisure family cruising and the diehard fisherman. By adding 2 feet in length and 13” in beam over the 2600 series, you gain many features that simply are not possible on the smaller boats. The full galley includes a 2 burner propane cooktop, a deep sink w/ hot and cold water, and a 3.5 cubic foot refer. The cabin also includes a fully enclosed electric marine head and a hot water shower system. Notably, the Commander has a roomy port side aft stateroom. The 2800 Commander represents the excellence that is the hallmark of all SeaSport boats.

OFFSHORE 3000

Every serious angler dreams of the ultimate fishing boat; the Offshore 3000 can make that dream a reality. The Offshore is a world-class sports fisher that boasts optimal performance, speed and a long range capabilities. Similar to the Voyager 3000, the Offshore combines the benefits of a great fishing boat with all the added luxuries of a pleasure cruiser. With a slightly shorter cabin than the Voyager, the result is a huge 82 sq. ft. aft deck. The additional deck space creates a large fish hold and 2 storage compartments to store your gear. Included in the Offshore's functional cabin is a four-person dinette, an enclosed head with shower, and full galley with stove, microwave oven, refrigerator and sink. Accommodations for five are achieved with the Offshore's convertible dinette and quarter berth. The Offshore 3000 is the extreme sportfishing vessel that will make you the envy of the water.

VOYAGER 3000

With the Voyager 3000, SeaSport has combined quality construction with first class comfort to create the ultimate family cruising vessel. The spacious cabin offers an enclosed marine head with shower, large V-berth, a full galley with propane stove, microwave oven and a convertible dinette area for easy entertaining. The Voyager 3000, with its thoughtful appointments and intuitive design, feels more like a home away from home. The 63 sq. ft. cockpit, coupled with a 10'6" beam, gives you a spacious fishing platform large enough for the whole family. The 18" walk around provides you wide and safe access to the bow. The standard electric windlass lets you anchor in any cove, perfect for finding that secluded, unknown spot.

PACIFIC 3200

The flagship of SeaSport boats is the 3200 Pacific power catamaran. With a 12'10" beam and twin asymmetrical hulls, this vessel creates a high speed, stable and efficient ride not found in other boats this size, and its patented catamaran design greatly reduces side rolls and pitching from wave action. The well-appointed cabin, with six different available layouts, provides all the features needed for extended cruising. The Pacific 3200 is a vessel of luxurious amenities, optimum design and advanced engineering giving you the ultimate on the water experience.
